SUMMARY

I am junior full stack developer with a vast array of knowledge in many different front-end and back-end languages, responsive frameworks, databases and best code practices. I am a lifelong learner and as such, I have been learning technologies across the MERN stack. I am also going into the world of blockchain by learning the python language. My objective is to apply my problem-solving skills and algorithm knowledge to make a difference in the team.
Thank you for your consideration.
